SUBJECT: GENERAL -

DISPOSITION OF STATION [REDACTED]

25X1A

SPECIFIC -

1. CONTACTS

Agent contacts have been few but contacts with [REDACTED] have been regular and 25X1A reliable. We are keeping [REDACTED] informed of our results. If possible we would like as much information as is available as to who is hearing us.

2. POWER

Presently we are receiving power from the [REDACTED] however there is no long 25X1A term promise of continued service; therefore, I have requested that the 12.5 KW generator be repaired and the 30 KW set in operation however nothing has been accomplished towards this end as yet. The primary reason being that the labor question, to this time, <sup>REMAINS</sup> being un-solved.

3. ANTENNAS

We have 3 transmitting antennas, two of which are long wires and the third a doublet cut for 10.6 Mcs. Work on receiving antennas and rombic is delayed pending receipt of wire and labor.

4. LOCATION OF EQUIPMENT

The receiving cite is the tower, however it is very small and does not provide ample space for the commo safe, pad work, etc. Foundation and

basic structure are available which would allow the size to be doubled and I have requested that same be done. The HT4 is housed in a seperate room on the ground floor which also serves as store room and workshop.

## 5. PERSONNEL

The personnel at the present is adaquate.

## 6. AGENT EQUIPMENT

The agent equipment has been boxed but shipment awaits chief of station and [ ] action.

## 7. COMMO-ADMINISTRATION RELATIONS

Relations with the chief of station have been very "delicate". This is due to 2 reasons I believe. First because you did not inform him of your intentions at this station and secondly because he feels that I am too young to direct any activity which will become a major portion of his station. I consider myself and [ ] quite capable and with your support we shall prove it.
